

oxford engineering

A KAS Technologies Group Company 

Oxford Engineering Health & Safety Policy

Oxford Engineering recognises the need to prevent injury and ill health and to continually improve its Occupational Health & Safety (OH&S) management and performance. The company commits to doing this by the following:

- Ensuring adherence to legislation and other requirements to which the company subscribes in relation to our OH&S hazards.
- Defining objectives & targets in relation to OH&S
- Identifying significant OH&S hazards and addressing them through good practice.
- Engaging with staff and giving them the required training and supervision to support the company's OH&S objectives and ensuring they are aware of individual obligations.
- Defining roles & responsibilities within the organisation structure.
- Through monitors and reviews striving to continuously improve our OH&S performance & management system.

Objectives & targets have been set with regards to the above commitments, and the company will make every effort to meet or exceed them.

To ensure the company's OH&S management system is of the highest quality, it has been certified to the BS OHSAS 18001 standard. Staff at all levels has responsibilities within the system and adequate equipment, resources, training, supervision & instruction will be given to enable adhere to them.

The Managing Director has the overall responsibility for all matters relating to OH&S, and will be involved in the review of the management system to ensure it remains current and operates within the legislative and BS OHSAS 18001 requirements.

The OH&S policy will be available on the OH&S notice board and for public viewing via the company website.
