Quality Policy

The senior Management of Oxford Engineering Ltd is committed to quality and continual improvement in all areas of the Company. Working as a team we ensure that the Company's objectives for quality and Customer satisfaction are met.

Our goal for quality is to maintain and continually improve all of our products and processes in order to consistently meet Customer, regulatory and internal requirements.

Quality Objectives

1. To continually supply product which meets our Customers requirements
2. To reduce occurrences of non-conformance in all of our processes.
3. To provide delivery on time in full according to our Customer's needs
4. To maintain and improve Customer satisfaction to the highest levels.
